SUNNYVALE, CA 94089

CONTAINS NO CBI

Dear Submitter:

This letter acknowledges receipt of your submission in compliance with the Toxic Substances Control Act (TSCA). A case number for your submission has been provided below.

If your submission is consolidated, case numbers are assigned to chemicals in the order in which they are listed in the notice. For example, a notice that lists chemical A followed by chemical B, will be assigned successive case numbers such as P-00-0001 for chemical A and P-00-0002 for chemical B. All other chemicals listed will proceed in that order.

For most submissions, it generally takes EPA three weeks to make a provisional risk management decision at a FOCUS meeting. This decision will be posted at the EPA web site:

<http://www2.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/current-status-section-5-notices>. Please check this web site for the status of your submission using the case number given below in the designated format. For Biotechnology submissions, you will receive a call from a program manager within three weeks of the submission.

The submitter of a PMN or MCAN must provide a Notice of Commencement (NOC) form to EPA within 30 calendar days of the date the substance is first manufactured or imported for nonexempt commercial purposes.

Any further correspondence regarding this notice should reference the case number cited in this letter and should be directed to the **New Chemicals Management Branch** at **(202) 564-8469**.

For more information regarding the New Chemicals Program, go to:

<http://www2.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca>.

Submission Information

Document Type	PMN
TSCA Section	5
